

第4回生体医歯工学共同研究拠点国際シンポジウム
文部科学省共同利用・共同研究拠点

The 4th INTERNATIONAL SYMPOSIUM on BIOMEDICAL ENGINEERING

Sponsored by Ministry of Education, Culture, Sports, and Technology [MEXT]

November 14 and 15, 2019
ACT CITY HAMAMATSU Congress center
アクトシティ浜松コングレスセンター

The Research Institute of Electronics (RIE) at Shizuoka University, which was originally established in 1965, is the sole research institute in Japan which conducts research and development on ultra high performance novel imaging devices in regard to the time/spatial resolution, the range of light intensity and the wavelength. The institute is also engaged in the fundamental research of optoelectronic technology focused on imaging devices.

[Abstract submission deadline] September 13, 2019
